Projects

Travel Trip Budget Prediction | Python, Pandas, NumPy, Scikit-learn, Exploratory Data Analysis, Matplotlib | Demo Nov 25 – Dec 25

- Built an end-to-end machine learning pipeline to predict travel budgets by cleaning, structuring, and analyzing 850+ historical travel records across diverse trip scenarios.
- Applied regression techniques including Linear Regression, Decision Tree, and Random Forest to model cost behavior, effectively capturing non-linear patterns influencing travel budget variations.
- Generated interpretable analytical visualizations to identify key cost drivers such as seasonality, trip duration, and accommodation type, supporting reliable budget estimation and planning decisions.
- Repository Link** : <https://github.com/Srujanaaddanki/TravelTripBudgetPrediction>

Travel Insights & Budget Analysis Dashboard | Power BI, DAX, Data Modeling, KPI Analysis, Excel | Demo Oct 25 – Dec 25

- Developed a multi-page Power BI dashboard to analyze travel spending patterns, budget variance, and seasonal trends for data-driven executive and stakeholder decision-making.
- Implemented DAX-based calculations, KPI indicators, and interactive slicers to evaluate utilization ratios and time-based expenditure behavior using structured and scalable data modeling
- Enabled intuitive insight discovery through drill-through navigation, forecasting visuals, and custom tooltips, improving clarity, engagement, and self-service analytical exploration.
- Repository Link** : <https://github.com/Srujanaaddanki/Travel-Insights-Budget-Analysis-Dashboard>

HR Analytics Dashboard | Excel, Power Query, Pivot Tables, Data Visualization | Demo Feb 25 – Mar 25

- Designed an interactive analytics dashboard to examine employee attrition, job satisfaction, and workforce demographics, enabling HR teams to make informed, data-backed organizational decisions.
- Processed and transformed HR datasets using advanced Excel formulas, Power Query, and pivot-based modeling to support department-wise and role-wise trend analysis.
- Delivered clear KPI-focused visualizations that highlighted attrition drivers and workforce patterns, supporting faster interpretation and improved strategic HR planning outcomes.
- Repository Link** : <https://github.com/Srujanaaddanki/HR-Analytics-Dashboard>

Training

Data Analytics Corporate Training Program — TechTip24 Present | Instructor-led, Practical Training

- Currently undergoing corporate-level training in data analytics and business intelligence using Power BI, SQL, Tableau, and Python for real-world problem-solving
- Gaining hands-on experience with real-time datasets and projects, focusing on data modeling, dashboard development and business insights.
- Participating in mentor-led sessions, doubt-clearing, interview preparation and resume optimization to enhance industry readiness and applied analytics skills.

Certifications

Oracle Cloud Infrastructure 2025 Certified Data Science Professional Oct 25

Oracle | Badge | Certificate

Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate Sep 25

Oracle | Badge | Certificate

Technical Skills

Programming & Analytics: Python, SQL, Java, Power BI, Excel, Tableau, Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn

Foundations & Tools: Statistics, DBMS, Data Structures & Algorithms (basics), Hadoop, Git, GitHub, Jupyter Notebook, Linux

Professional Skills: Time Management, Active Listening, Team Collaboration, Adaptability

Education

Lovely Professional University Punjab 2023 – 2027

Bachelor of Technology - Computer Science and Engineering — CGPA: 6.8 Phagwara, Punjab

Sri Chaitanya Junior Kalasala 2021 – 2023

Intermediate; — Percentage: 95.1% Vijayawada, Andhra Pradesh

Sri Chaitanya High School 2020 – 2021

Matriculation; — Percentage: 100% Eluru, Andhra Pradesh
